

There is no reason why a combination of units can be used to great effect. Not just because of weather, but a combination of Gazebos for display and a trailer for Hospitality. Get your customers interested in your products and then invite them for a warming cup of tea or even more.

Any combination can be designed, and using Mobex expertise we can modify any of the units to exactly how you want it. Do not be limited by imagination, spread the display into separate areas that attract different types of clientele.

Just a few combinations that have been used
