

HU505 – One of a group of newly designed trailers that have a little more display area built in. A large open space within can be changed by a movable wall to open out a small hidden kitchen area but retaining its large display wall. HU505 has a true sense of space with large areas that are adaptable for display or hospitality.

The interior can still be further adapted to accommodate some more seating. Large display boards both inside and outside make it an ideal trailer to attract your customers directly onto the stand. Optional extra wing display panels available at no extra charge.
